Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

**MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

As per the requirement of Schedule V of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Management Discussion and Analysis of the events that have taken place and conditions prevailing during the period under review are elucidated.

**a) INDUSTRY STRUCTURE & DEVELOPMENT**

The Company is engaged in manufacturing of Granite Tiles & Slabs. The main market for the company’s product is USA, South Africa, U.K, UAE, Canada, Europe and Australia. The Global and Domestic Economy have been witnessing sectoral turnaround during the year, yet economic challenges prevail, which have impact on construction and building material industries.

**b) OUTLOOK**

National initiatives such as ‘Make in India’, ‘Skill India’, ‘Startup India’, ‘Smart Cities’, ‘Housing for All’, ‘Affordable Low-Cost Housing’; broadening financial inclusion, streamlining of taxation structure with the passage of the GST, strengthening of infrastructure, etc. would lead to improvement in the economic growth of the country in the coming future.

The company foresees reasonable growth of its product line and varieties of Natural stones, designer mosaics as well as semi precious stone products and concepts, subject to the nationwide economic activity being opening up fully post pandemic. The economic outlook for the year is still uncertain but viewed with cautious optimism. Our plans for the growth of the business and profitability are based on an average economic outlook, in the present business scenario.

**c) OPPORTUNITY AND THREATS**

The perceived threats for the Company are acute competition from Brazil and China, ever increasing material cost, unremunerative prices and availability of good quality raw materials due to export of the same in raw form.

The crisis is severe, but with the able management at the realm of affairs, the company, its products and the market will cover well and fast enough.

**d) RISKS & CONCERNS**

Rough Granite Blocks are raw material for products of the Company. As such the export of Rough Blocks may affect the profitability of the Company. The currency movement of India or competing nation can impact the business negatively. If Indian currency appreciates compare to other exporting nations or competing country’s currency depreciates it will impact our exports.

Over the last couple of years, the demand for engineered stone has increased at the expense of natural stones, which includes granite. While this change is more pronounced in certain countries, this trend could accelerate in the coming years and impact the long-term demand potential for granite.

The company is constantly working to find new export markets for its products which will help in diversification of risks and any adverse currency movement in one country will have a minimal impact on company’s business.

The government of India has approved a new scheme named Remission of Duties and Taxes on Exported products (RODTEP). While the finer details of this new scheme and remission rates under it are yet to be notified, the scheme essentially aims at refunding taxes and duties like value added tax on fuel that is beyond the ambit of the goods and service tax (GST) to exporter.

Intuitively this raises a major issue. Given what the RODTEP attempts to refund the rate under it are unlikely to be comparable to the MEIS rates lost in transit.

With India in a lockdown and a large chunk of its workforce, particularly, those employed in Micro, small and Medium enterprise back in the hinterlands, another major concern.

e) INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company has in place adequate internal financial controls with reference to financial statements and no material reportable weakness was observed in the system. The Audit Committee reviews the adequacy of Internal Control System at regular intervals and provide guidance for improvement and ensure that The Board of Directors of the Company has a policy by which it reviews the various risks to which the Company is exposed to and ensure proper regulatory compliances for exercising effective Internal Controls so that the company's interest and assets are safeguarded.

f) HUMAN RESOURCES

The Company has adequate 48 qualified and experienced human resources commensurate with its size and industrial relations continue to be cordial as the company continues to lay emphasis on development at all levels.

g) DETAILS OF SIGNIFICANT CHANGES (CHANGE OF 25% AND MORE AS COMPARE TO IMMEDIATELY PREVIOUS FINANCIAL YEAR) IN KEY FINANCIAL RATIO AND EXPLANATION THEREOF:

### Information other than the Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Board's Report including Annexure to the Board's Report, but does not include the financial statements and our auditor's report thereon. The Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard .

### Responsibility of Management for the Financial Statements

The Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting standards (Ind AS) prescribed under section 133 of the Act, read with the Companies (Indian Accounting standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection, application, implementation and maintenance of appropriate of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant

to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management and Board of Directors are also responsible for overseeing the company's financial reporting process.

#### **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about

the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

**Emphasis of Matter**

We draw attention to the following:

- a. *Balances in respect of trade receivables, trade payables and loans and advances are subject to confirmation from respective parties. However, in the opinion of the Management all the Current Assets and Non-current Financial Assets are approximately of the value stated in books if realized in the ordinary course of business and all the liabilities are payable except where there is dispute regarding quality of services, material or regarding rates. Refer note no. 41 of financial statement.*
- b. *The Company is carrying Stock of Granite Slabs and Tiles for more than 5 years without any movement but no provision has been made for any obsolescence or diminution in the value due to efflux of time. Refer note no. 40 of financial statement.*  
*In the opinion of the management, in stone industry, unlike other minerals such as iron ore or coal, each color or variety is a product by itself and the demand changes fast in consonance with the "fashion factor" abroad. It is natural product which is imperishable. It is commoditized business. Maintaining of large inventory is desirable in this business as company have to offer their customers so much in terms of variety, all sorts of colors, designs, textures and types. Slabs and Tiles are extremely resilient when it comes to staining and wear and water resilient. As such the same no provision for diminution in value is required.*
- c. *The Company has not provided and paid interest on delayed payment to MSME as per the provisions of the MSME Act, 2006. It was informed by the Management that the vendors have agreed to accept delayed payment without any interest and have not raised any objection. The impact of the same on the Profit and Loss for the year could not ascertain as the company has not calculated the amount of interest payable. Refer note no. 35 of financial statement.*

**Our Audit opinion is not modified for the above matters.**

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

As a practical expedient, the Company uses historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates to determine impairment loss allowance on portfolio of its trade receivables.

**B. Financial Liabilities:**

**i) Classification as debt or equity** - Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

**ii) Equity instruments** - An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

**iii) Initial Recognition and Measurement:**

All Financials Liabilities are recognized net of transaction costs incurred.

**iv) Subsequent Measurement-**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Gains and losses are recognised in profit or loss when the liabilities are derecognised through the EIR amortisation process.

**v) De-Recognition**

All Financials Liabilities are removed from balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

**12. Tax Asset**

Tax assets and Tax liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**13. Revenue Recognition:**

Revenue comprises of all economic benefits that arise in the ordinary course of activities of the Company which result in increase in Equity, other than increases relating to contributions from equity participants. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

**Sale of Goods:** Revenue from sales of goods is recognised on transfer of significant risks and rewards of ownership to the customers either at the time of dispatch or delivery or when the risk of loss transfers.

**Services:** Revenue from Services are recognized as and when the services are rendered. The Company collects service tax/Goods & Service Tax on behalf of the government and therefore, it is not an economic benefit flowing to the Company and hence excluded from Revenue.

**Interest:** Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

**Insurance Claims:** Insurance Claims are accounted for on acceptance and when there is a reasonable certainty of receiving the same, on grounds of prudence.

**14. Foreign Currency Transactions:**

The Company's financial statements are presented in Indian Rupees ('INR'), which is also the Company's functional currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rate at the date when the fair value is determined.

**15. Employee Benefits:**

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

Post Employment and Retirement benefits in the form of Gratuity are considered as defined benefit obligations, using the projected unit credit method, as at the date of the Balance Sheet. Every Employee who has completed five years or more of service is entitled to Gratuity on terms not less favorable than the provisions of The Payment of Gratuity Act, 1972. Gratuity is covered under a scheme of LIC and contribution in respect of such scheme is recognized in Profit & Loss Account. The liability at the Balance Sheet date is provided for based on actuarial valuation carried out by Life Insurance Corporation of India

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of reporting period on government bonds that have terms approximating to the terms of the related obligation

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions of the defined benefit obligation are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Employee benefits in the form of Provident Fund is considered as defined contribution plan and the contributions to Employees' Provident Fund Organization established under The Employees' Provident Fund and Miscellaneous Provisions Act 1952 is charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due. The Company pays provident fund contributions to publicly administered provident funds as per local regulations.

The Company has no further payment obligations once the contributions have been paid.

#### **16. Borrowing Costs:**

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds.

General and specific borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets during the period of time that is required to complete and prepare the asset for its intended use. A qualifying asset is one that takes necessarily substantial period of time to get ready for its intended use.

All other borrowing costs are expensed in the period in which they are incurred.

#### **17. Accounting for Taxes on Income:**

Tax expenses comprise of current tax and deferred tax including applicable surcharge and cess.

Current Income tax is computed using the tax effect accounting method, where taxes are accrued in the same period in which the related revenue and expenses arise. A provision is made for income tax annually, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable.

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profits against which the deductible temporary differences, and the carry forward unused tax credits and unused tax losses can be utilised.

Deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income. As such, deferred tax is also recognised in other comprehensive income.

Deferred Tax Assets and Deferred Tax Liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the Deferred Tax Assets and Deferred Tax Liabilities relate to taxes on income levied by same governing taxation laws.

#### **18. Contingent Liabilities & Contingent Assets:**

Contingent liabilities are not provided for but are disclosed by way of Notes on Accounts. Contingent liabilities is disclosed in case of a present obligation from past events

- (a) when it is not probable that an outflow of resources will be required to settle the obligation;
- (b) when no reliable estimate is possible;
- (c) unless the probability of outflow of resources is remote.

Provisions are made when

- (a) the Company has a present legal or constructive obligation as a result of past events;
- (b) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation;
- and
- (c) a reliable estimate is made of the amount of the obligation.

Contingent assets are neither accounted for nor disclosed by way of Notes on Accounts where the inflow of economic benefits is probable.

**19. Current And Non- Current Classification:**

The Normal Operating Cycle for the Company has been assumed to be of twelve months for classification of its various assets and liabilities into “Current” and “Non-Current”.

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

An asset is current when it is

- (a) expected to be realised or intended to be sold or consumed in normal operating cycle
- (b) held primarily for the purpose of trading
- (c) expected to be realised within twelve months after the reporting period
- (d) Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when

- (a) it is expected to be settled in normal operating cycle
- (b) it is held primarily for the purpose of trading
- (c) it is due to be discharged within twelve months after the reporting period
- (d) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. All other liabilities are classified as non-current.

**20. Earning Per share:**

Earnings per share are calculated by dividing the net profit or loss before OCI for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss before OCI for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The main purpose of these financial liabilities is to finance the Company's operations. The Company's financial assets include trade and other receivables, cash and cash equivalents, and deposits.

The Company is exposed to market risk and credit risk. The Company has a Risk management policy and its management is supported by a board of Directors that advises on risks and the appropriate risk governance framework for the Company. The audit committee provides assurance to the Company's management that the Company's risk activities are governed by appropriate policies and procedures and that risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

**(i) Market Risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises risk of interest rate, currency risk and other price risk, such as commodity price risk and equity price risk. Financial instruments affected by market risk include FVTPL investments.

**a. Foreign Currency Risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities. The Company has a treasury department which monitors the foreign exchange fluctuations on the continuous basis and advises the management of any material adverse effect on the Company.

**Foreign Currency sensitivity**

The following table demonstrates the sensitivity to a reasonably possible change in foreign currency exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of assets and liabilities.

Particulars	USD impact	
	As at 31 March 2024	As at 31 March 2023
	<b>Increase in exchange rate by 5%</b>	
Impact on profit or loss for the year	15.23	40.40

<b>Decrease in exchange rate by 5%</b>		
Impact on profit or loss for the year	-15.23	-40.40
Impact on total equity as at the end of the reporting period	-15.23	-40.40

#### b. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

#### Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Increase/ decrease in basis points	Effect on profit before tax
		<i>(Lakhs)</i>
31-03-2024		
INR	+ 50	10.14
INR	- 50	-10.14
31-03-2023		
INR	+ 50	11.02
INR	- 50	-11.02

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

#### (ii) Credit Risks

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables).

The Company implements a credit risk management policy under which the Company only transacts business with counterparties that have a certain level of credit worthiness based on internal assessment of the parties, financial condition, historical experience, and other factors. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Company has established a credit policy under which each new customer is analysed individually for creditworthiness.

#### Trade receivables

An impairment analysis is performed at each reporting date on an individual basis for all the customers. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on credit losses historical data. The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables disclosed in Note 8 as the Company does not hold collateral as security. The Company has evaluated the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries.

Refer note no 8 for ageing of trade receivable as of 31st March, 2024 and 31st March, 2023.

No significant changes in estimation techniques or assumptions were made during the reporting period.

Credit risk also arises from transactions with financial institutions, and such transactions include transactions of cash and cash equivalents, various deposits, and financial instruments such as derivative contracts. The Company manages its exposure to this credit risk by only entering into transactions with banks that have high ratings. The Company's treasury department authorizes, manages, and oversees new transactions with parties with whom the Company has no previous relationship.

Furthermore, the Company limits its exposure to credit risk of financial guarantee contracts by strictly evaluating their necessity based on internal decision making processes, such as the approval of the board of directors.

#### Credit risk exposure

The carrying amount of financial assets represents the Company's maximum exposure to credit risk. The maximum exposure to credit risk as of 31st March, 2024 and 31st March, 2023 are as follows:

**(iii) Liquidity Risk**

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements at all times. The Company relies on a mix of borrowings and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium/ long term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs. Besides, it generally has certain undrawn credit facilities which can be accessed as and when required; such credit facilities are reviewed at regular intervals.
